

# Wood End Park Academy

Friday 9th September 2022

Dear Parents / Carers

## **Special Educational Needs Unit (SENd Unit ) - Consultation**

I am writing to inform you that the governors and I have been considering how best to support the growing number of children across Hillingdon with Educational Health Care Plans (EHCPs) which specify Autism and/or Moderate and/or Severe Learning difficulties ( MLD and SLD).

Wood End Park Academy has always been able to provide provision for children on roll with Special Educational Needs and are keen to expand this further to meet the growing need.

Our large building and site gives us capacity to expand in this way and we will be working very closely with the local authority to make reasonable adjustments to our current building to include a Special Educational Needs Unit (SENd Unit ).

This has been approved by the local authority with effect from September 2023 as this allows a full academic year to make the required structural changes, establish and resource the new provision.

**This will not affect current pupils and parents / carers at the school or siblings or other local families wishing to join the school in future.**

I am happy to speak to any parents/carers with questions during the consultation period and the full consultation is attached for your reference.

Yours sincerely

Ms Surjeet Johra  
Principal
