

Computing Ambassadors WEPA

Preparing our pupils for the digital world.

Intent Statement

Technology is changing the lives of everyone. Through teaching computing we equip our children to participate in a rapidly changing world where work and leisure activities are increasingly transformed by technology.

It is our intention to enable children to find, explore, analyse, exchange and present information. We also focus on developing the skills necessary for children to be able to use information in an effective way.

Computing skills are a major factor in enabling children to be confident, creative and independent learners and it is our intention that children have every opportunity available to allow them to achieve this.

Main roles

“During Computing clubs, children to be supported to practise the skills and strategies learnt during Computing lessons.”

“Children encouraged to gain new skills using step-by-step instructions.”

“Child-appropriate settings are in place for a safe and secure Computing experience.”

“E-safety is taught and promoted throughout the school so all children should know how to stay safe online.”

“Make sure equipment/hardware/software is being looked after and used sensibly.”
