

DIY Marble Run from Toilet Rolls

Equipment:

11 Toilet paper rolls
Cardboard base
Tape
Paint
Glue
Marbles / Pom Poms

Instructions:

1. To connect the towers cut 3 toilet rolls in half long ways and tape them together to make chutes.
2. Next, cut holes in the towers for the chutes to rest in, making sure that it they are tilted downward to encourage the marbles to roll down. You can test this as you are cutting with a pom pom to make sure the holes in the towers are high enough to allow the balls through.
3. For the base you can use a side of a cardboard box, mark the towers out, and then glue them down. Leave this overnight to dry completely to ensure that it is secure.
4. The next day you can paint the towers, chutes and base and once dry you can use the glue to secure the chutes in place.
5. Have fun!!
