How you can help your child at home.

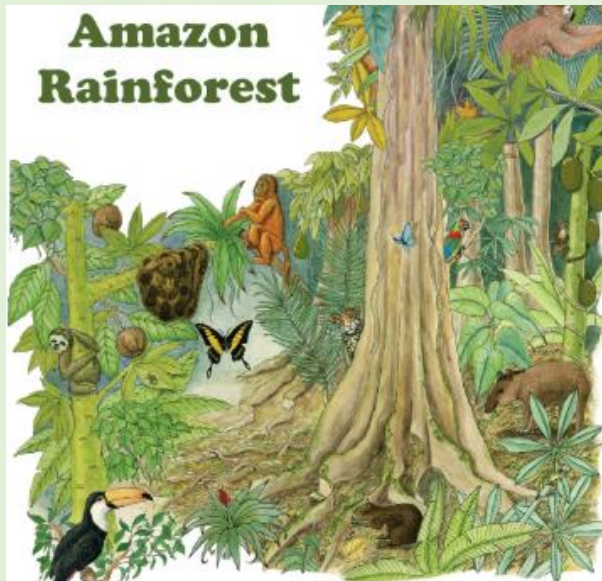

English

This is an example of a description of a rainforest.

Can you find the adjectives?

Has the author described the 5 senses?

How would you improve this?

Amazon Rainforest

The Amazon rainforest is the largest rainforest in the world, once covering almost half of South America. It is a hot, humid place, rich with wildlife. Birds screech from overhead, the jaguar hunts tapir and agouti while sloths, monkeys and toucans feed safely above in the trees. Rainforests are being cut down around the world. It's important to learn about them and protect them before they are gone.

Maths

To help with learning the properties of shape could you go on a shape hunt at home? Can you find squares, rectangles and triangles around the house?

How about using pipe cleaners to create different shapes? See the picture for examples!

PSHE

Pupils will learn about making decisions on how to spend money as well as where money can be stored e.g. banks. It maybe useful to have dicussions about this with your child - how do you manage your money?
