

## Rubbing

This is made by carefully pressing paper on to a surface so that the paper conforms to the features to be copied.

## Sponge painting

Using a sponge to gently dab in to paint. This will create texture in the painting.

## Collage

A type of art that is created using range of materials and textures.

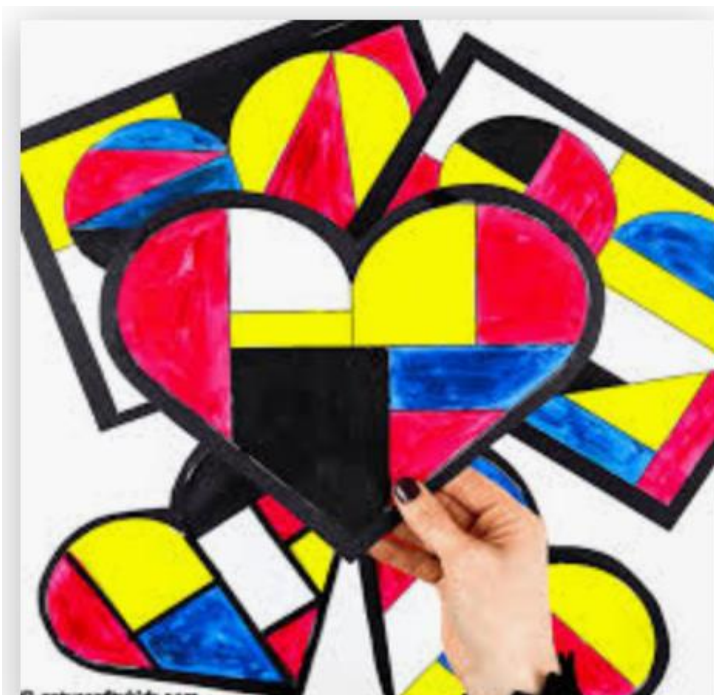

## Sand painting

Mixing PVA glue with sand to create texture and to keep the sand in place.

## Design

A decorative pattern.

## Patterns

Repeated shapes or designs.

## Texture

The quality of something that can be decided by touch. It can rough or smooth and soft or hard.
