

Spring 1 Theme 3:

People who help us in schools
(teachers and school chefs).

What can you do at home?

Books to
read at
home

Read and research non-fiction texts about teachers and school chefs (and those found in restaurants). Discuss settings in which they work; equipment, costumes, day to day tasks and so on.

Literacy
learning

Write a Chef's special recipe!

What is your favourite food or dessert? Can you write down the ingredients and instructions? Bring this into school for our friends to follow and try at home!

Understand
ing the
World

Be a chef's helper and help your adult to cook or bake something special. Think about the changes in texture when adding together different ingredients (for example, the cake batter become sticky when adding water). Look at the cake before and after coming out of the oven. What has changed? What caused this change? What is the temperature of the cake? Observe how much time this takes to cool down.
