

History Day

History at Wood End Park Academy is brought to life with an annual History Day event.

It is a great opportunity to explore the topics we have been learning and a good chance to get dressed up!

Through our time at our academy, we dress up as different characters from throughout history. We learn about significant people from the past and during History Day the teachers try to bring these people to life through role play etc.

During History Day, the history we are studying becomes even more meaningful and fun. We get the opportunity for activities such as bread making, creating new and old toys, going back in time to a Victorian school and writing in Morse code.

We love History Day at Wood End Park and can't wait for this special day each year.
