

Dear Parent/Guardian,

At Wood End Park we have invested in a new times tables application and website called “Times Tables Rockstars”. Times tables are fundamental to children’s learning in mathematics and a sound knowledge of times tables can accelerate their learning and transfer to other areas of mathematics.

The game allows them to practise their times tables that they are working on in school and the more they improve the more points they achieve and the more features they can unlock. Your child will be given a username and log in and we are encouraging children to log in and play at home as much as possible. We will be giving out certificates for children who are using the application regularly to improve their times tables!

For more information including an introductory guide and setting up guide please click the link on our website.

Miss Jones,
