

The Big Bang theory: According to the Big Bang theory, about 13.8 billion years ago the whole Universe was a very small, extremely hot and dense region. From this tiny point, the whole Universe expanded outwards to what exists today.

Universe: all existing matter and space considered as a whole; the cosmos. The universe is believed to be at least 10 billion light years in diameter and contains a vast number of galaxies; it has been expanding since its creation in the Big Bang about 13 billion years ago.

Faith When you have faith, you trust or believe in something very strongly. A faith is a particular religion, for example Christianity, Buddhism, Islam or Sikhism. You can also have faith in people and things in a non-religious way.

Atheist

a person who disbelieves or lacks belief in the existence of God or gods.

Truth

that which is true or in accordance with fact or reality.
